SIDDHI KALE

Software Engineer

Pune, India | +91-9422554886 | xesiddhikale51@gmail.com | linkedin.com/in/siddhikale2306

PROFESSIONAL SUMMARY

Software Developer with hands-on experience building, debugging, and maintaining responsive web applications using JavaScript (ES6+), HTML5, CSS3, React.js, Next.js, and Node.js. Skilled in REST API and web-service integration, writing clean and maintainable code, and collaborating in Agile teams using Git version control. Strong debugging, problem-solving, and analytical-reasoning skills, with a track record of feature enhancements, performance optimization, and delivering scalable full stack products. Eager to ramp quickly on new languages and platforms including DSA, AI/ML and LMS tools such as Moodle.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, jQuery, SQL fundamentals, Python, C++
Frontend: React.js, Next.js, Tailwind CSS, Responsive & Mobile-First UI, Cross-Browser Compatibility
Backend & APIs: Node.js, REST API Development, RESTful Architecture, Web Services Integration
Databases: Relational database concepts, SQL queries, MySQL
Real-Time: WebRTC, Socket.io, Peer-to-Peer Communication
Tools & Version Control: Git, GitHub, Git Workflows, Vercel, VS Code, Microsoft Excel (Advanced), Docker
Practices: Agile, CI/CD, Code Reviews, Debugging, Performance Optimization, Clean & Maintainable Code
Actively Learning: LMS platforms, DSA, AI/ML.

WORK EXPERIENCE

MERN Stack Developer | CodeServeTech Pvt Ltd, Pune, India *May 2026 – June 2026*

- Developing and maintaining full stack web applications using React.js, Next.js, Node.js, and Tailwind CSS, contributing to feature development and bug resolution across production codebases.
- Translating product requirements into scalable, maintainable front-end and back-end solutions while adhering to clean code standards and Git-based version control workflows.
- Integrating and managing REST APIs to enable reliable data exchange between client interfaces and server-side services, ensuring consistent performance.
- Participating in Agile code reviews and sprint cycles, consistently delivering enhancements and fixes within sprint deadlines.

Full Stack Web Developer Trainee | Corizo, Pune, India *Jan 2024 – Feb 2024*

- Developed and maintained production web pages using HTML5, CSS3, JavaScript (ES6+), and jQuery, ensuring cross-browser compatibility across Chrome, Firefox, and Safari.
- Handled bug fixing and feature enhancements on live pages, applying systematic debugging and analytical reasoning to resolve UI and functional issues.
- Translated Figma wireframes into pixel-perfect, responsive, mobile-first components, reducing QA revision cycles through careful testing and review.
- Integrated third-party REST APIs to ensure reliable data flow between front-end interfaces and back-end web services.
- Optimized asset delivery (images, CSS, JavaScript bundles) to improve page load speed and Core Web Vitals.

PROJECTS

Wanderlust – Full-Stack Travel & Property Listing Platform | *Node.js, Express.js, MongoDB, EJS, Bootstrap* *2026*

- Built a full-stack property listing platform with user authentication, authorization, and CRUD functionality.
- Developed RESTful routes and integrated MongoDB for managing users, listings, reviews, and ratings.
- Implemented image upload and listing management features with a responsive EJS/Bootstrap interface.
- Followed MVC architecture and middleware-based request handling to create a modular and maintainable application.

Shpolux — Luxury E-Commerce Platform | Next.js, React.js, Tailwind CSS, Node.js, Vercel *2025*

- Built and deployed a full stack luxury shopping platform with product listings, category filtering, and a streamlined checkout experience optimized for mobile and desktop viewports.
- Designed reusable React component architecture with clean Next.js page routing, enabling consistent UI and easy scalability as product catalogue grows.
- Integrated REST APIs for dynamic product data, order management, and user authentication, ensuring secure and reliable data flow across the application.

AI Audit — AI-Powered Business Audit Tool | Next.js, React.js, Node.js, Anthropic API, Vercel *2025*

- Developed a full stack AI audit application that analyses business data and generates actionable audit reports and recommendations using LLM integration via the Anthropic API.
- Built a dynamic input and results dashboard in React.js, allowing users to submit data and view structured AI-generated insights with clear visual summaries.
- Implemented Node.js back-end logic to process user inputs, communicate with the AI API, and return structured audit outputs, with error handling and validation throughout.

EDUCATION

B.Tech — Computer Science and Engineering *Aug 2023 – Aug 2027 (Expected)*
Nutan College of Engineering and Research, Pune

12th (HSC – 66.88%) *Feb 2023*
S.M.Joshi Junior College, Pune

10th (SSC – 85.80%) *Mar 2021*
Sadhana English Medium School, Pune

CERTIFICATIONS

- Web Development Bootcamp — Apna College
- Full-Stack Web Development — Udemy
- Python — Udemy
- Data Science Foundations — Internshala
- Microsoft Excel Advanced — Udemy
